Professional Summary

Aspiring Data Analyst with hands-on skills in SQL, Python, Excel, and Power BI, transitioning into analytics after 13.6+ years of professional experience in project coordination, reporting, and business operations. Experienced in analyzing operational data, building reports, and identifying trends to support business decisions. Strong in problem-solving, data interpretation, and transforming raw data into actionable insights.

Technical Skills

- Programming & Querying: SQL, Python
- Data Visualization: Power BI
- Spreadsheet Tools: Excel (Pivot Tables, VLOOKUP, Advanced Formulas), Google Sheets
- Data Analysis: Data Cleaning, EDA, Data Modeling, Statistics
- Soft Skills: Problem Solving, Communication, Stakeholder Management

Projects

Active National Highway Tender Intelligence Across India — Python, Power BI [Project Link](#)

- Cleaned and transformed **636 National Highway tender records** using Python (Pandas and NumPy), performing data validation, missing-value treatment, standardization, and feature engineering.
- Developed an interactive **Power BI dashboard** using KPIs, DAX, filters, and visual analytics to analyse **tender activity, deadline urgency, work categories, regional trends, and organizational patterns** for decision-making.

India Road Accident Analysis — Power BI, Excel [Project Link](#)

- Cleaned and transformed a Kaggle road accident dataset (20,000 records) using Excel through preprocessing, standardization, filtering, and validation techniques.
- Built an interactive Power BI dashboard using DAX, KPI cards, charts, and drill-down analysis to identify accident trends, severity patterns, and regional risk insights.

Excel Capstone Project — Excel [Project Link](#)

- Performed data cleaning and transformation using Pivot Tables, VLOOKUP, and advanced Excel formulas to improve dataset consistency and reporting accuracy.
- Created structured reports and analytical dashboards to identify trends and generate actionable business insights for decision-making.

Professional Experience

Senior Business Engineer Indian Road Survey and Management Pvt Ltd

Dec 2012- Present

- Analyzed data across 300+ projects using Excel to track KPIs, identify trends, and improve reporting accuracy.
- Created Excel & Power BI dashboards using Pivot Tables, VLOOKUP, DAX, and advanced formulas for performance reporting.
- Supported 100+ bids/proposals annually for projects up to ₹50–100 Cr, collaborating with 20+ team members on tender analysis, data validation, and process improvement.

Education

- **MBA in Human Resources** – Anna University Distance Education, Chennai
- **B.Tech in Information Technology** – Srinivasan Engineering College, Perambalur

Certifications

Certification in Data Analytics Entri Elevate (in collaboration with Illinois Institute of Technology, USA) — 2026

- Executed SQL queries, performed data cleaning, and analyzed structured datasets using Excel and Python.
- Built dashboards and visual reports using Power BI to generate insights from real-world case studies.

ISO 9001:2015 QMS Lead Auditor Certification

- Gained expertise in quality management systems, process auditing, compliance monitoring, and continuous improvement practices.
